

# Jason Dukleth

## Senior Web Developer

Fullstack JavaScript, Node & PHP developer with 13 years of industry experience. I have led projects, mentored junior developers, and programmed eCommerce platforms, complex aviation work, and business critical applications. I pride myself on being teamwork-oriented, an avid learner and a problem solver who takes initiative.

## WORK EXPERIENCE

### Aviation Ops Developer

#### Vellox Group

01/2025 - 11/2025

##### Achievements/Tasks

- Worked as a team in a highly collaborative, Agile environment with Jira at its core. Learned how to use AI effectively.
- Worked on flight tracking, operational control center, dispatch, aircraft stats, weather systems, pilot trackables, aviation map, duty times, maintenance, report generation, and more.
- Worked with team on DevOps; including AWS and implemented GitHub Actions
- Completed 133 Jira tickets, built ETL database migration system, UI-based FAA rules system, dark mode, aircraft weather cones, a pilot/supervisor system, flight tracking integration, and more.

### Senior Fullstack Developer

#### JDS Industries

2022 - 2024

##### Achievements/Tasks

- Ran the web team behind a large-volume eCommerce site
- Reworked the entire eCommerce site to improve user experience, speed, reliability and modernization. Eliminated 400k lines of code and dozens of bugs. Made it all mobile friendly.
- Developed product management and other enterprise tools tailored to business requirements.
- Overhauled the credit card vendor, taxes software, product details, product images and many other business systems
- Automated tasks critical to both business and software operations

### Senior Fullstack Developer

#### Software Alternatives

2013 - 2021

Sioux Falls, SD

##### Achievements/Tasks

- Built an entire e-commerce platform specialized for IBM partners.
- Developed enterprise eCommerce and APIs. Including ordering systems, payment processing, shipping, rentals, exchanges, quote requests, invoice approval, financial analytics, document management, configurators.
- Modernized the web team with Git, command-line DevOps, Vue.js, Express APIs, and functional programming patterns.
- Managed APIs, websites, Git repositories, code reviews, Linux, AWS EC2 and IBM i servers.
